XXVI Training Conference of the Non-Invasive Electrocardiology and Telemedicine PTK Section 2020

"WITH ECG AND TELEMEDICINE IN THE NEW 25 YEARS!"

4 - 7 MARCH 2020
HOTEL MERCURE KASPROWSKI
ZAKOPANE
CERTIFICATES OF COMPLIANCE WITH ETHICAL REQUIREMENTS

Invitation of the Organizing Committee

Dear Sir or Madam!

Our Kasprovisko (formerly Kościelisko) or Training Conference of the Non-Invasive Electrocardiology and Telemedicine Section of the Polish Cardiac Society enters its second quarter of a century. Our annual meeting in Zakopane already has an established position in the dynamically growing market of conferences on cardiology, from year to year the number of participants, lecturers, scientific sessions and workshops increases.

Therefore, we have reason to be satisfied, but we still want to develop and change for the better. As every year, we are preparing a very interesting scientific program for you. There will be practical sessions you like so much, during which you will have the opportunity to analyze interesting ECG recordings, holters, exercise tests and records obtained in
telemedicine together with Polish authorities. Of course, we will include many scientific sessions dealing with the issues of broadly understood electrical recording of the work of the heart, arrhythmology, arrhythmogenesis in both diagnostic and therapeutic context. During Kasprowiska 2020, one of the leading topics will be

**Detailed Program**

Non-territorial events are financed from the Organiser's own resources; are not part of the scientific program. The source of financing entertainment events does not come from innovative pharmaceutical companies that are INFARMA members or companies that are members of the POLMED chamber.
Dear Sir or Madam,

If you paraphrase a well-known text, you could sing "ECG everyone can, a little better or a little worse. But this is not what it comes to who goes out ..."

I invite you to participate in the traditional ECG Marathon for the fourteenth time. The marathon is a forum of clinical cases in which ECG tests play an important role - resting, exercise, multi-day, from Event tests, from smartphones or from records from implantable devices. The theme of our meeting in 2020 will be the slogan: "This ECG taught me ..."

Share your electrocardiography and clinical practice experiences with other participants. I look forward to your suggestions. We have time to present a maximum of 25 cases - 13 places are reserved for "Debutants". Teamatically - several places are reserved for cases based on ECG registrations using smartphones. Three places are waiting for interesting cases from the Facebook group I like EKG.

Brief case description with key entry (entries) please send to ekg@ikard.pl by December 31, 2019. Please select the category of potential Presenter - Debutant or Recidivist and whether the case is from the I Like ECG group

See you at Kasprowsko!
